DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

The house is a 1-1/2 story, frame structure with a three bay facade with central doorway. On the north end is an external chimney with a one story base; the stack is destroyed but was free standing. The sheathing is random with clapboards.

The frame is braced, with corner posts and a principal post on each facade. A large beam runs thwartwise across the house and first floor joists rest on it as well as front and rear sills. The plate and posts are mortised, tensioned and pegged; rafters are mortised, tenoned and pegged at the ridge and birdmouthed over the plate. The second floor rooms are ceiled at the collars with overlapping boards.

In plan, the house has two rooms divided by the staircase, which is enclosed with random width boards. The lath are hand-split throughout.
